Points of discussion
1. Progress Report
2. Allow time for each team member to clear doubts about their next task according to the project plan and the gantt chart.
3. Discussion on the model, decisions made for the model by Kelvin and Oscar since last meeting.
4. Identify where we are at with the programming and begin discussing how the controller will integrate the model and view.
5. Discuss the upcoming presentation and what we plan to present
6. Assign tasks to do with presentation.
7. Make sure every team member understands how to proceed (next task).
8. Set expected progress for the following week.
9. Decide who will be the Chair and the Recorder for the next meeting and its date.
